

## Pupil premium strategy statement

This statement details our school's use of pupil premium (and recovery premium for the 2021 to 2022 academic year) funding to help improve the attainment of our disadvantaged pupils.

It outlines our pupil premium strategy, how we intend to spend the funding in this academic year and the effect that last year's spending of pupil premium had within our school.

### School overview

Detail	Data
School name	Felsted Primary School
Number of pupils in school	199
Proportion (%) of pupil premium eligible pupils	11%
Academic year/years that our current pupil premium strategy plan covers ( <b>3 year plans are recommended</b> )	2021-2024
Date this statement was published	08 December 2023
Date on which it will be reviewed	September 2024
Statement authorised by	Mrs Bryony Collins
Pupil premium lead	Miss Charlotte Hart
Governor / Trustee lead	Mrs Kirsty Anderson-Taylor

### Funding overview

Detail	Amount
Pupil premium funding allocation this academic year	£28,250
Recovery premium funding allocation this academic year	£3,774
Pupil premium funding carried forward from previous years (enter £0 if not applicable)	£26,695
<b>Total budget for this academic year</b> If your school is an academy in a trust that pools this funding, state the amount available to your school this academic year	£54,945 (Not inc. Recovery)

# Part A: Pupil premium strategy plan

## Statement of intent

Our intention is that all pupils should have the opportunity to reach their potential, making rapid progress across the year. We want all pupils, including those identified as disadvantaged to achieve at least their age expected expectations as they move through the school. We aim to achieve this through rigorous assessment of our pupils, enabling us to implement effective and appropriate strategies based on recognised evidence-based practice. Regularly reviewing the strategies in place and further assessments ensures our practice is continually effective.

Our approach is centred around high-quality teaching for all pupils and ensuring that disadvantaged pupils are an integral part of the class and supported primarily by our highly experienced class teachers. We focus relentlessly on learning and our strategy aims to adopt early interventions where needed. Evidence consistently show high-quality teaching for all pupils to have the greatest impact on closing the attainment gap and will benefit both disadvantaged and non-disadvantaged pupils.

At Felsted Primary School our definition of disadvantaged pupils incorporates a broad range of students, including pupils who are eligible for the pupil premium grant and those children who may be disadvantaged through other factors, such as socioeconomic reasons or family disruption. Disadvantaged pupils are identified by need not assumptions or labels. We use national, evidence-based practice to analyse and understand pupil needs, which we respond to by planning, implementing and evaluating effective practice across the school.

Our strategy for our disadvantaged pupils is currently implemented along with our wider plans for school improvement. We are using targeted support for pupils' who education was most disrupted, including both disadvantaged and non-disadvantaged pupils.

## Challenges

This details the key challenges to achievement that we have identified among our disadvantaged pupils.

Challenge number	Detail of challenge
1	Our assessments and observations show slower language development and comprehension skills for our disadvantaged pupils on entry and throughout school career, linked to a lack of vocabulary.

2	Our basic skills assessments and ongoing observations evidence that early reading skills, including the application of phonics, is slower to develop for some disadvantaged pupils. <b>Data analysis shows that fewer disadvantaged children achieve age related expectations in reading when compared to non-disadvantaged pupils.</b>
3	Informal observations and conversations, including anecdotal evidence highlight that our disadvantaged pupils have limited life experiences and opportunities to join in enrichment opportunities.
4	Analysis of assessments over the past three years show that there are gaps in learning associated with inconsistent prior learning, inconsistent prior attendance and Covid lockdowns.
5	Informal observations and conversations, including anecdotal evidence highlight how a lack of cultural capital exacerbates gaps in learning and ability to attend to lessons for some of our disadvantaged pupils.
6	Informal observations and conversations with pupils and parents, evidence that social, emotional and mental health factors are impacting on the learning of disadvantaged pupils.
7	<b>Data analysis shows that children achieving the age expected standard is similar to non-disadvantaged pupils. However, the gap is of greater significance for pupils achieving above the age-related expectations.</b>

Red additions above are from new analysis in September 2023

## Intended outcomes

This explains the outcomes we are aiming for **by the end of our current strategy plan**, and how we will measure whether they have been achieved.

Intended outcome	Success criteria
Pupils make at least expected progress in reading, writing and maths and increased numbers of PP children attain the age related expectations.	Gap will close in progress made and standards reached between PP and non PP. Rapid increase in reading ages, phonics assessments and reading comprehension assessments for PP children.
Pupils access a wide range of interventions to meet their needs, including speech and language.	As their needs are being addressed, PP pupils make expected progress or exceed their targets set in R,W,M.
Pupils access a wide range of enrichment experiences both in and out of school.	Pupil surveys reflect enjoyment in school and improved attitudes to learning. Social skills, independence, perseverance and team work are developed.
Positive SEMH is embedded allowing pupils to learn, make progress and reach age expected standards.	Pupil surveys reflect enjoyment, safety and pupils ability to focus on leaning in

	class. PP Pupils are reaching age expected standards. Mentoring assessment tool demonstrates improvement in pupils SEMH.
Pupils' attendance to be above 95% so they are consistently accessing the curriculum.	Attendance above 95%. As children are consistently in school, gaps in learning can be rectified, ensuring pupils can achieve at least the age related expectation.

Activity in this academic year

This details how we intend to spend our pupil premium (and recovery premium funding) **this academic year** to address the challenges listed above.

## Teaching (for example, CPD, recruitment and retention)

Budgeted cost: £3414.80

Activity	Evidence that supports this approach	Challenge number(s) addressed
<ul style="list-style-type: none"> <li>Pupil Progress meetings track progress of PP pupils and appropriate, timely interventions are put in place.</li> <li>Robust diagnostic assessments in place running alongside National Curriculum assessments</li> <li>Pupil voice, parental voice, teacher voice used to inform our approach</li> </ul>	<ul style="list-style-type: none"> <li>BASW (2018) Key Drivers of the Disadvantaged Gap: Literature Review</li> </ul>	1, 2, 4, 6

**Total budgeted cost: £ 54,945**

## Part B: Review of outcomes in the previous academic year

### Pupil premium strategy outcomes

This details the impact that our pupil premium activity had on pupils in the 2022 to 2023 academic year.

Analysis of our previous Disadvantaged strategy from 2020-21 showed that our disadvantaged children were not able to reach the standards expected to them due to the COVID 19 pandemic. Robust evidence gathered from schools across Essex and the country show that many pupils, especially those from a disadvantaged background missed out on; social interactions, building relationships with teachers and peers, accessing teacher subject knowledge, having a structure and routine, consistency of expectations, opportunities for conversation and discussion, high quality modelling and feedback. During this period, our disadvantaged pupils were also not able to benefit from our targeted interventions and wider strategies as we had intended. This includes the curtailment of enrichment and extra-curricular activities, such as school clubs, visits and visitor to school. Our current strategy was put in place to overcome these barriers.

The positive impact of our current strategy is evidenced through our internal data, which shows that as a cohort our disadvantaged children made better progress compared to our non-disadvantaged children in reading, writing and maths. This is most notable in reading where **all** the disadvantaged pupils made at least expected progress and 31% made better than expected progress. The attainment of our disadvantaged pupils is broadly in-line with our non-disadvantaged pupils, especially when adjusted for pupils with an EHCP. Although, fewer of our disadvantaged pupils are achieving above age related expectations, our data shows that the attainment gap evident in our previous disadvantaged children's strategy (2020-21) is significantly narrowing.

At 5.6% our rate of persistent absence for our disadvantaged pupils is significantly below the national average and within 0.1% of the cohort as a whole. Our good rate of attendance ensures that the disadvantaged children are in school and able to benefit from the provisions in this strategy, which again can be seen in their good rates of progress.

In line with national evidence and research conducted in Essex, our assessments and observations indicate that social, emotional and mental health was disproportionately impacting on disadvantaged pupils, particularly in light of the national lockdowns. We used pupil premium funding to provide wellbeing support for all pupils, and targeted interventions where required and we have built on that approach with the activities

detailed in this plan. The success of this is evident in the good progress our disadvantaged pupils have made.
